"This is the Lord's Church. We are not running an organization; this is the kingdom of God on the earth, and we are preparing for the Second Coming of the Savior. If we really understand that, the patterns and the processes that we put in place now are imperative in relation to the Second Coming. So I don't think we're just putting in time, punching the clock, and getting a paycheck. This is the most important work that can be done anywhere, any time on the planet."

Elder David A. Bednar
